

BUILD MISSISSIPPI

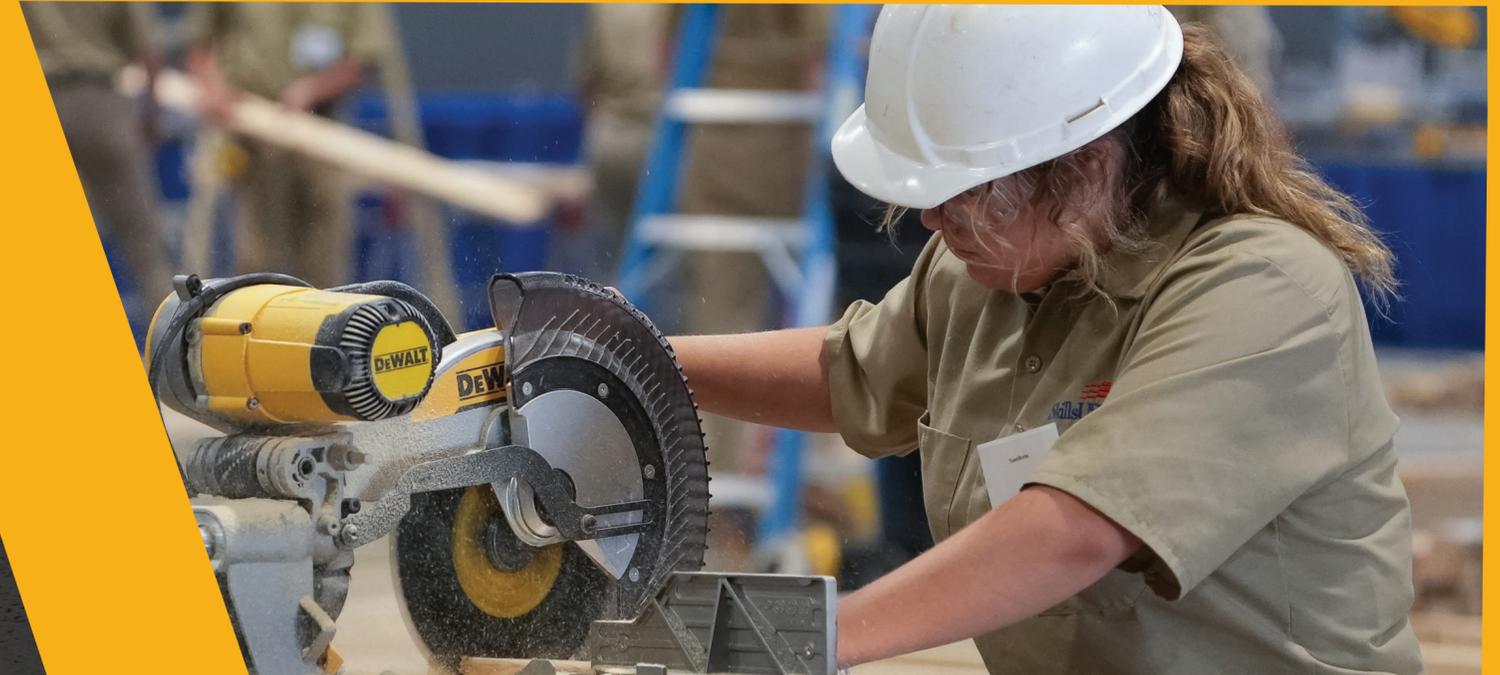

Construction Elective Credits for Students

Build Mississippi is a nonprofit dedicated to bridging the workers' gap in the trades by spreading awareness about the incredible career opportunities in construction. We also provide high-quality training to prepare students to enter and excel in the construction industry. Our expert training includes high school elective credit programs!

➤ We offer the following high school electives:

- Construction Core
- Electrical
- Carpentry
- HVAC
- Plumbing
- Welding

If you're interested in offering these courses in your school, we can help!

Build Mississippi will:

- Train your instructors, or try to connect you with a potential instructor in the area
- Provide you the curriculum, textbooks, testing and certifications at no cost
- Supply you lesson plans, power points, and other needed resources
- Help you attain needed equipment
- Offer one-on-one assistance throughout the year via a Build Mississippi representative
- Connect you and your students with local industry professionals

Want to offer your students these career building

courses with no material cost? Contact us today!
